Quality Assurance

When you become a Dental Health Services plan member, you'll be more than pleased with the care you receive. Our network dentists are experienced, skilled, and go through a rigorous pre-screening process before being accepted into our exclusive network.

Every office we work with meets more than 100 Quality Assurance criteria, and regular audits and quality reviews help keep these standards high.

In addition, all of the dentists we choose to work with are independently owned. This means that all decisions about your oral health are made by your dentist, and your dentist alone.

Enroll today & experience Quality Assurance for yourself. You'll be glad you did!

"My dentist is thorough, competent, demonstrates extraordinarily good work, and has a great staff! I couldn't be more pleased with my dental care!"
